

Onboarding setup flow for a Business Owner
 Compare to the Freelancer setup to ensure enough info is covered for each user type.

Consider possible changes...

- Are these the correct terms?
- Is it clear what the user needs to do and what happens next?

Note: Payment setup is waiting for info from the Product Manager. Just check the headline for now.

Setup confirmation
 This screen appears for both Business Owners and Freelancers and is completed.

Consider possible changes...

- How is the tone of voice worked?
- Is it clear what info the user needs to enter?
- How does a user get past this screen? (Hint: Tapping the background area generally dismisses an info dialog, but do not know for sure.)

Business Owner ongoing use and message center
 These screens are for a Business Owner who's actively using the app along with the Freelancer client.

Consider possible changes...

- Are these the correct terms?
- How is the voice and tone?
- Anything important the designer might have left out?

Freelancer ongoing use and message center
 These screens are for a Freelancer who's actively using the app along with the Business Owner Client.

Consider possible changes...

- Are these the correct terms?
- How is the voice and tone?
- Anything important the designer might have left out?

Setup screens - Business Owner & Freelancer
 All the info on the welcome screen and the sign-in screen is covered by headings but below in each step is something which then if the user chooses Business Owner or Freelancer to continue to customize the rest of the screen going forward to the flow.

Consider possible changes...

- Are these the correct terms?
- Is it clear what the user needs to do and what happens next?
- How does a user get past this screen? (Hint: Tapping the background area generally dismisses an info dialog, but do not know for sure.)

Onboarding setup flow for a Freelancer
 Compare to the Business Owner setup. Ensure enough info is covered for each user type.

Consider possible changes...

- Are these the correct terms?
- Any punctuation, spelling, or grammar corrections?
- Is it clear what the user needs to do and what happens next?

Note: Payment setup is waiting for info from the Product Manager. Just check the headline for now.

Notes for the Designer and/or Product Manager
 Add notes or questions here if you need to clarify, offer general guidance, or add new copy.

8/18 Needs to be fixed:
 - Add a note to the Product Manager: The user needs to be able to see the project details in the message center.
 - Add a note to the Product Manager: The user needs to be able to see the project details in the message center.
 - Add a note to the Product Manager: The user needs to be able to see the project details in the message center.
